INTRODUCTION

IFPI’s Engaging with Music 2022 explores the ways that people listen to, discover, and engage with music around the world. It is the largest music-focused consumer study worldwide.

The study was carried out amongst a demographically representative sample of the online population aged 16-64 in the following territories: Argentina, Australia, Brazil, Canada, France, Germany, Italy, Japan, Mexico, Netherlands, New Zealand, Poland, South Africa, South Korea, Spain, Sweden, UK and USA. The study was also conducted amongst 16–44-year-olds in China, India, Indonesia, and Nigeria. As in 2021, results from China and India are not included in “global” figures cited in this report as the size of these countries would have a considerable impact on the weighted average figures used. Results from Indonesia and Nigeria are not included in global figures as the countries were newly added to the survey in 2022. Case studies for each of these four countries are provided at the end of this report.

In 2021, IFPI’s analysis included results from Russia. This country was not included in the study in 2022. Because of this, any trending between 2021 and 2022 is between the nineteen countries used for the global figure in 2021 and, for 2022, the same countries excluding Russia.

In total, over 44,000 internet users were surveyed with higher numbers of respondents in larger markets. Samples of 1,000, 2,000, or 4,000 respondents per market were set in accordance with online population size and demographic structure, as determined by the latest respective census data in each territory. This ensured that a standard error of ±3% was achieved throughout the data at a 95% confidence level. Study design, construction, and analysis was conducted by IFPI with fieldwork organised by AudienceNet.

Totals for charts in this report may not add up to 100% where relevant because of rounding.

The 22 countries surveyed accounted for 80% of global recorded music market revenues in 2021. Fieldwork took place between June and September 2022.

This global report, Engaging with Music 2022, demonstrates the central role music plays in enriching so many different parts of our lives.

Based on research conducted with more than 44,000 music fans across 22 countries, this is the largest music study of its kind. It shows how music engagement is thriving, driven by new genres, new formats and an increasingly rich mix of new ways that people can engage with music today.

One of the most exciting, burgeoning areas on which this report shines a light is music’s evolving role in boosting our mental and physical well-being, soundtracking activities from running to meditation and beyond.

It also demonstrates the growing power of local genres, and the impressive breadth of music that is consumed across the globe: from the continuing popularity of K-pop, C-pop, and J-pop, to Afrobeats, and the enduring power of Pop and Hip-Hop.

The report also examines the importance of music in shaping our engagement with film and television and creating completely new experiences within gaming platforms.

However, despite the wide array of licensed services available to music fans, unauthorised use of creators’ content stubbornly persists. This harms those who create and invest in music and disrupts the healthy ecosystem that enables both emerging and established artists to achieve creative and commercial success.

As IFPI and its member record companies continue to work to tackle the issue of content protection, this report serves as a healthy reminder of the true global importance and value of music, and the need to protect and support it.

None of this would be possible without record companies and their passion for, and continued investment in, great artists and their music. After all, it is record companies that discover and support new artists, help develop music technology innovations and license new and emerging music services that strengthen the connection between artists and fans.

We hope that you enjoy exploring the ways in which people engage with and delight in music in every corner of the world.

Frances Moore
Chief Executive, IFPI

"MUSIC HAS THE UNIQUE POWER TO ENTERTAIN US, INSPIRE US, CONSOLE US, AND EVEN HEAL US."
A GLOBAL SNAPSHOT OF MUSIC ENGAGEMENT IN 2022

Based on research conducted by IFPI across 22 of the world’s leading music markets, this report highlights people’s continued appetite and passion for music, shining a light on the pivotal role it plays in so many different areas of our lives.

THE MUSIC ENGAGEMENT MIX

- 24% Subscription audio streaming (e.g. Spotify Premium, Apple Music, Melon)
- 19% Video streaming (e.g. YouTube, Daily Motion, Niconico)
- 10% Purchased music (e.g. CDs, vinyl, iTunes, digital downloads)
- 17% Music on the radio (broadcast live, catch up, internet radio stations)
- 8% Ad-supported audio streaming (e.g. ad-supported tiers of Spotify and Deezer)
- 6% Other forms of music listening (e.g. TV, on-demand premium video services such as Netflix, music swapped with family and friends)
- 4% Live music (including livestreaming)
- 5% Social media platforms (e.g. Facebook, Instagram)
- 8% Short form video apps (e.g. TikTok)

20.1 hours
Time spent listening to music each week (up from 18.4 hours in 2021)

That’s the equivalent of listening to an additional 34 3-minute songs per week in 2022

On average, people use

6 different methods to engage with music

People listen to

8 different genres of music on average

50% use short form video apps

58% have watched a music-focused TV show or film in the last month

32% have watched a music livestream such as a concert in the last month

30% use unlicensed or illegal ways to listen to or obtain music

46% listened to music using subscription audio streaming

69% say music is important to their mental health
SUBSCRIPTION AUDIO REMAINS POPULAR AROUND THE WORLD

PAID SUBSCRIPTION AUDIO STREAMING CONTINUES TO GROW ACROSS THE GLOBE, DRIVEN BY LISTENERS DESIRE TO SEARCH FOR AND LISTEN TO THEIR FAVOURITE SONGS AND ARTISTS, ADVERTISEMENT FREE AND ON DEMAND.

74% of people said they listen to music through licensed audio streaming services (subscription and ad-supported).

\[ \text{\(10\%\)} \]

There was growth in time spent listening to music on subscription audio streaming services, which reaffirms music fans’ strong attraction to streaming.

\[ \text{\(\downarrow 10\%\)} \]

The top three reasons why people subscribed to a music streaming service focused on uninterrupted and on-demand access to the millions of licensed tracks available:

01 No adverts interrupting the music
02 I can listen to what I want when I want
03 Access to millions of songs

The top five countries most engaged with paid subscription:

1. Sweden 56%
2. UK 52%
3. USA 51%
4. Germany 51%
5. Mexico 50%

The top three ways in which people chose music more often focused on access to the vast and rich library of music available than the curation offered by streaming services:

56% said they search for specific songs more than once a week
53% said they listen to playlists they created more than once a week
50% said they search for a specific artist more than once a week

The use of subscription audio streaming was highest in younger demographics:

- 54% 16-24
- 56% 25-34
- 44% 35-44
- 36% 45-54
- 26% 55-64

(IN THE LAST MONTH)
MUSIC IS INTEGRAL TO PEOPLE’S MENTAL AND PHYSICAL WELLBEING

Around the world, music continues to play an increasingly important role in people’s wellbeing - both in terms of supporting our mental health and also soundtracking and motivating our physical activity.

69% of people say music is important to their mental health

- 76% for paid streaming users
- 72% for women
- 70% for Millennials (Gen Y)

People that use music to soundtrack their chosen physical activity:

- 88% Running
- 83% Yoga
- 73% Cycling
THERE ARE MORE WAYS THAN EVER FOR PEOPLE TO ENGAGE WITH MUSIC TODAY

Fans are engaging with music in growing and diverse ways - from the continuing popularity of short-form video to in-game experiences.

Over three-quarters of people think there are more ways to listen to music than ever before. This figure is higher in older generations who have experienced the growth and evolution of music listening habits.

76% of 55-64 year olds believe this to be the case.

Fans are excited to discover the enormous range of new music that is released each week across a wide variety of formats.

50% of 16-24s discover a new music artist at least weekly.

The top 5 ways that people engage with music are:

1. Video streaming 82%
2. Audio streaming 74%
3. Radio 71%
4. Short form video 68%
5. Social media 49%

On average, people use 6 different methods to engage with music. This was highest in 16-24s (7.7).
A continued look at the different ways people are engaging with music

1. **Music continues to play an important role in people’s gaming habits**
   - 21% of all 16-24s watched a virtual music concert on a gaming platform in the last three months

   - 50% of people use short form video apps
   - 63% Music was central to 63% of all the time spent watching videos on short form video apps.

3. **Top 5 countries with most short form video app users**
   - 1. South Africa 78%
   - 2. Mexico 78%
   - 3. Brazil 71%
   - 4. Argentina 66%
   - 5. New Zealand 53%

4. **Livestreamed concerts continue to prove popular**
   - 32% of people said they had watched a music livestream, such as a concert, in the last month

5. **This engagement was highest in**
   - 1. Brazil 58%
   - 2. Mexico 54%
   - 3. South Africa 53%
   - 4. Argentina 46%
   - 5. South Korea 37%

6. **Music plays a vital role in what people are watching around the world**
   - 58% of people have watched a music-focused TV show or film in the last month

Usage in the last month
THE MOST POPULAR GENRES AROUND THE WORLD

ACROSS 34,000 RESPONDENTS IN EIGHTEEN COUNTRIES, OVER 500 DIFFERENT GENRES WERE NAMED BY AT LEAST ONE PERSON AS THE MUSIC THEY TYPICALLY LISTEN TO — INCLUDING DANGDUT, DISCO POLO AND SERTANEJO — REFLECTING THE RICH AND DIVERSE MUSIC LANDSCAPE FANS NOW ENJOY AROUND THE WORLD.

Overall, people listen to an average of 8 genres of music.

The number of favourite genres is highest in those people most engaged with music, such as people who subscribe to audio streaming and those who buy vinyl: both groups listen to 9 genres on average.

For instance:

**BRAZIL:**
- Sertanejo: 47%
- Samba / Pogade: 40%

**NIGERIA:**
- Afrobeats: 52%
- Gospel: 51%

Here are just some of the 500+ genres identified as being enjoyed by music fans all over the world:

1. Pop
2. Rock
3. Hip-hop / Rap
4. Dance / Electronic
5. Latin
6. Classical / Opera
7. R&B
8. Soundtracks
9. Country
10. Reggae
RADIO CONTINUES TO PROVE POPULAR, WITH MUSIC DRIVING PEOPLE’S ENGAGEMENT

The enduring popularity of radio continues, and music remains the key reason for people to tune in to their favourite stations around the world.

- **Music fuels engagement with radio**
  - **73%** Listen to the radio mainly for the music
  - **67%** Tune into their favourite radio station because of the music it plays
  - **63%** Said without music they wouldn’t listen to the radio

- **All age groups reported strong engagement with radio**
  - 16-24: 56%
  - 25-34: 69%
  - 35-44: 73%
  - 45-54: 77%
  - 55-64: 76%

- **Music is still fundamentally important to radio’s offering to its listeners**
  - **84%** If the radio no longer played music, 84% of radio listeners would then seek music elsewhere, most often through a subscription streaming service.
MUSIC PURCHASING ACROSS THE GLOBE

People around the world continue to buy physical music.

- 12% purchased a CD in the last month
- 8% purchased vinyl in the last month

Most popular genres amongst vinyl buyers are:
- Pop
- Rock
- Hip-Hop
- Dance/EDM
- Classical/Opera

Most common reasons people have to buy vinyl are:
- I like physically owning my music: 49%
- I like the ritual of playing a vinyl record: 36%
- I like having the physical records to look at: 41%
- I like immersing myself in a full album: 28%
- I like reading liner notes: 26%
- I want to support my favourite artists by buying the physical album: 26%

84% of people who buy vinyl purchase new
66% of people who buy vinyl purchase second-hand

IFPI ENGAGING WITH MUSIC 2022
ENGAGING WITH UNLICENSED MUSIC

The availability of unlicensed music remains an issue for the whole music ecosystem, with almost a third of people reporting to have used illegal or unlicensed methods to download and listen to music.

WHAT IS STREAM RIPPING?
Stream ripping is the illegal practice of creating a downloadable file from content that is available to stream online. It is now the most prevalent form of online music copyright infringement.

30% used copyright infringement as a way to listen to or obtain music
40% of 16-24s

27% used stream ripping sites as a way to listen to or obtain music
43% of 16-24s

17% said they had used an unlicensed mobile app to illegally download music
